

**REMARKS**

In the Notice of Allowability attached to the Notice of Allowance mailed on July 26, 2005, the Examiner provided an Examiner's Amendment, an Interview Summary, and a Statement of Reasons for Allowance. Regarding the Examiner's Amendment, the Applicants found errors in the amended independent claim 1. As discussed below, the Applicants agreed to an Examiner's Amendment of independent claim 1 to recite that the mounting base comprises "a chassis mounting latch." Unfortunately, the Examiner's Amendment recites this feature *twice* in the amended claim 1. For this reason, the Applicants submit the foregoing amendment pursuant to 37 C.F.R. § 1.312 to correct this error in the Examiner's Amendment. Applicants respectfully request consideration and entry of the foregoing amendments. The Applicants also submit that this error is not due to any error by the Applicants and, thus, no fee should be due with regard to the foregoing amendment. However, if any fee is deemed necessary to enter this amendment, then the Applicants authorize the Commissioner to charge the requisite fee to Deposit Account No. 08-2025.

On July 12, 2005, the Examiner initiated a teleconference with Applicants' representative, Tait R. Swanson (Reg. No. 48,226), to discuss allowable subject matter and possible amendments to expedite allowance of the present application. In view of this discussion, to expedite prosecution and allowance, the Applicants' representative agreed to an Examiner's Amendment adding claim 3 to claim 1, adding claim 13 to claim 11, adding claim 19 to claim 18, adding claim 29 to claim 28, and canceling claims 3, 13, 19, 20, 29, 32, and 37. In addition, the Applicants' representative agreed to an Examiner's Amendment to amend claim 31 to recite "via a first latch" and "via a second latch" in lines 5 and 6, respectively. Finally, the Applicants' representative agreed to an Examiner's Amendment to change the phrase "tool-free mounting" to "latching" in line 2 of claim 35. In view of these cancellations and amendments, the Examiner agreed that the application would be in condition for allowance.

Regarding the Examiner's Statement of Reasons for Allowance, although Applicants gratefully acknowledge the Examiner's Allowance of the present claims, Applicants do not necessarily agree with the Examiner's Reasons for Allowance. Applicants respectfully stress that each of the independent claims is patentable based on certain features explicitly recited in

that individual claim, but not necessarily as set forth in the Examiner's Statement of Reasons for Allowance.

Respectfully submitted,

Date: August 26, 2005
